WHICH LAYER WOULD HAVE STOPPED IT?

For each cell: a dot if that layer would have **stopped** it, a cross if it would have **missed** it, a question mark if you cannot tell. Print at A3, one per pair.

Incident	Gateway filter	Tool sandbox	Output schema	Human escalation
EchoLeak (card 5)				
GitHub MCP toxic flow (Day 2, card 4)				
Replit database deletion (Day 2, card 1)				
DPD chatbot (card 4)				

Gateway filter: inspects prompts and responses. Tool sandbox: limits what a manipulated agent can reach. Output schema: rejects malformed output. Human escalation: a person decides when the trigger fires.

DOES THIS TRIGGER WORK?

Step 1. Write a trigger for the mortgage agent that tells it when to hand a customer who may be in financial difficulty to a person. Use the form below. You have 6 minutes. Then swap with another pair without explaining it.

If ...

then escalate to ... within ...

Step 2. Mark each message below, silently, using only the trigger you were handed. E = escalate, N = do not escalate. Then compare with your partner and count how many of the eight you agreed on.

Customer messages (one set per person)

MESSAGE 1 **"I can't pay this month. Can I skip a payment?"** Me: E N Partner: E N	**MESSAGE 2** **"What happens if I miss a mortgage payment?"** Me: E N Partner: E N	**MESSAGE 3** **"My hours at work have been cut and I'm worried."** Me: E N Partner: E N	**MESSAGE 4** **"I lost my job last week. What are my options?"** Me: E N Partner: E N
MESSAGE 5 **"Just checking my payment date."** Me: E N Partner: E N	**MESSAGE 6** **"I'm struggling a bit, but I'm sure it will be fine. Please arrange a callback."** Me: E N Partner: E N	**MESSAGE 7** **"My husband died in March and I don't know what to do about the account."** Me: E N Partner: E N	**MESSAGE 8** **"Why has my payment gone up? It's too much for me."** Me: E N Partner: E N

Agreement tally: write your number of agreements (0 to 8) on a dot and stick it on the wall.
